EDUCATION

**B.Tech in Electronics and
Communication**

Indian Institute of Information
Technology, Dharwad

CGPA: 7.14

SKILLS

C++ OOPS Data Structures and
Algorithms

Android Studio Firebase
Javascript

Nodejs Expressjs Reactjs
HTML CSS REST API
POSTMAN Flutter

MONGODB SQL MYSQL

Git Github Python Machine
Learning NLP Computer Vision

CODING ACTIVITY </>

- Solved 300+ Questions on [Leetcode](#)
- Solved 100+ Questions on [GFG](#)
- Solved 100+ Questions on [Codechef](#)

PROJECTS

React Restaurant Web App

 [Restaurant App Github link](#)

Designed React.js-based front-end for a mobile restaurant app, enhancing user experience and food exploration. Employed categorization for efficient menu navigation, creating an enticing interface. Leveraged React.js for responsive performance, optimizing the app's front-end operation, and ensuring a seamless dining experience for users.

Flutter ECommerce Mobile APP

 [Mobile app Github link](#)

Developed a dynamic e-commerce mobile application using the Flutter framework. This project seamlessly integrates user-friendly navigation, secure payment processing, and an engaging interface for a superior shopping experience. Demonstrated proficiency in app development, UI/UX design, and e-commerce functionality within a Flutter environment.

MERN SOCIAL MEDIA WEB APP

 [social media web app link](#)

Created and deployed a responsive, feature-rich MERN social media platform, integrating email and Google Authentication, pagination, search, filtering, comment functionalities, and more, to enhance the user experience.
